floorsense

Installation Guide

Parts included:

2x

2x

300mm

Unit should be located in the centre of the desk, as close to 300mm from the front edge as the desk model allows.

1

Using the wood screws provided fix the floorsense module in the centre of the desk.

2

Peel back of cable clips to expose adhesive. Attach to underside of desk where required.

3

Attach ACDC power adapter and USB micro cable at to below desk power point

---

4

If supplied, run the USB micro cable up the cable cover.

⚠ **Avoid moving parts of adjustable height desks**

❌   ✔

5

Guide cable either through or around the desk bracket, depending on the desk model.

6

Plug Micro USB cable in and keep tidy using cable clips.

✔ **Desk Complete!**

The Light on the console should be flashing red. The desk is now ready for configuration. Please see configuration guide. For more information head to floorsen.se/support
